Job Description

The position is as a full-time employee of Red Fox Resources working as a warehouseman and dismantler in our Operations Center. Red Fox Resources recycles catalyst containing emission control parts from heavy-duty diesel applications. Key activities in our warehouse include receiving and unloading shipments, inspecting and cataloging parts, performing various metal cutting operations to dismantle the parts, separating ceramic materials from parts, and out-loading materials from our facility.

Candidates will be evaluated on willingness and ability to work in an environment focused on the following key tenets: Safety, Cleanliness, Accuracy, Efficiency, and Productivity.

The successful candidate will have experience working with his/her hands, be able to quickly learn new skills, work effectively with others, and be comfortable in an active and physically demanding environment. We are looking for someone who can effectively and enthusiastically work as a member of our team.

The position's roles, skills, and abilities are further defined below:

ROLE AND RESPONSIBILITIES

Red Fox Resources

Shipping/Receiving inbound and outbound shipments using forklifts and pallet jacks
Inbound inventory receiving using paper and electronic documentation tools
Dismantling of heavy duty truck parts using hand and power tools
Operation of hydraulic powered recycling equipment
Maintain organization and cleanliness of workplace

SKILLS and ABILITIES

The applicant should either have been trained or willing to be trained on the following skills:

- Operation of a forklift
- Operation of power tools and cutting equipment including plasma cutter, chop saw, reciprocating saw, and angle grinder
- Use of electronic devices such as smart phone or electronic tablet

The candidate must have the ability to do the following:

- Understand and adhere to safety rules and policies
- Work in a physically demanding environment lifting and moving heavy parts (up to 75 pounds) by hand
- Work in a collaborative environment as a member of a team
- Work independently on specific projects and tasks
- Take instruction and learn new work processes and tasks quickly
- Work in a fast paced environment driven by goals and deadlines

EDUCATION REQUIREMENTS:

- High school diploma or equivalent

EXPERIENCE

- Relevant and similar experience is preferred, especially experience with power tools and/or experience with diesel exhaust aftertreatment

ADDITIONAL NOTES

- Candidate may be subject to a background check during hiring process

BENEFITS

- Health benefits (after 3 months)
- 401(k) with employer match
- Paid holidays and sick time
- Monthly bonus based on achieving production goals
